

1. Main user Login page (User can choose which type of user they are, customer or admin)

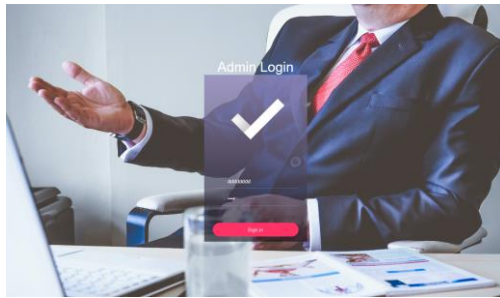

2. Admin Login page (User can login into admin page to edit the content)

2.1 Admin can input their account and password then click on sign in button to login (For example, I insert admin2 for account, 1111 for password)

2.1.1 I insert incorrect account dddddddd and password 1111111111

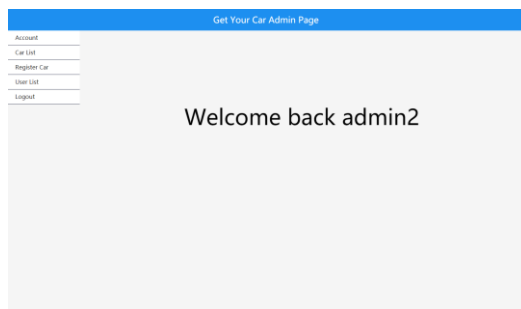

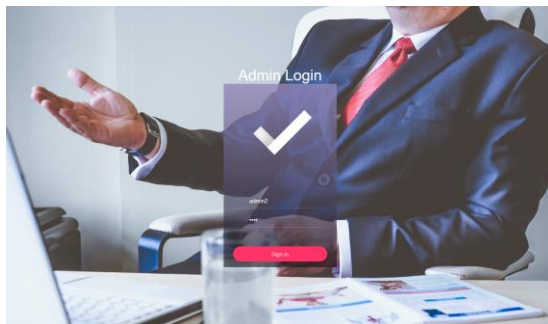

The website will remind user "Wrong account or password, please try again" then return to admin login page

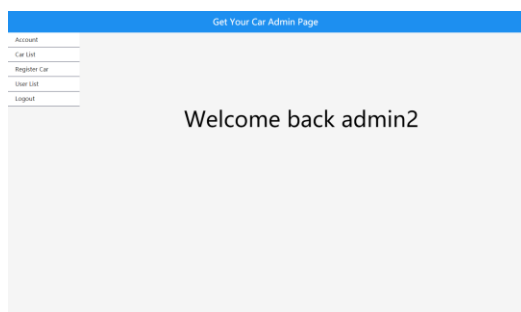

get-your-cars.r.appspot.com says  
Wrong account or password. Please try again

OK

2.1.2 I insert correct account admin2 for email part, 1111 for password part then user can login as admin and go to **admin home page**

2.2.1 Admin Home page (Admin Home page will show which admin is logged into admin page, as we see, we login in as admin 2)

2.2.2 Register Car Page

We can add new car into website from this page

Get Your Car Admin Page
